State Citizen and/or Federal citizen ONLINE SEMINAR DATE: Saturday, FEBRUARY 24, 2018

This is a seminar about **Federal JURISDICTION**. You may not realize that **Who You Say You Are, Where You Say You Live, Where You Say You Work and What Kind of Work You Do**, either puts you under the Federal or State government's jurisdiction or keeps you Free from their regulation and control. Find out why that is... You can also determine if you have a Federal Income Tax Liability (requirement). This class will help you understand the difference between State and Federal Citizenship and is **the basis for determining if you would like to obtain a United States Passport**, establishing your State Citizenship rather than a Federal or U.S. (14th Amendment) citizenship.

The Cost for this Seminar is \$100

The purpose of this workshop is **not** to give you a civics lecture explaining your civic duties in this country, but a foundation to realizing your sovereignty and State Citizenship and how you may have unknowingly compromised it. What value will I receive by participating in an event like this?

1. You will have a greater passion for actually being Free from Federal Jurisdiction and Regulation; this information will be vital to your life. Find out Why.
2. **In this class you will see how the US Congress can impose the Affordable Health Care Act upon US citizens and if you actually are required to sign up for it or not.**
3. In this class, you will see a real **MATRIX**. One that most people don't realize exists and when it is shown to you it will amaze you. You'll know whether you'll want to take the "**RED PILL**" and unplug from Federal Jurisdiction.
4. In the life of a Free American, did you know that being a U.S. citizen is NOT necessarily a good thing? Check this out... This class will show you how to stay out of the Fed's Regulation and Control.
5. Did you know that you could obtain a United States of America passport **without** being a federal U.S. citizen or providing a Social Security number? Find out how and why.
6. In this class you will see the "law" that unfortunately requires most Americans to file and pay Federal Income Taxes. Are federal Income Taxes constitutional? Find out why and how you won't have to participate.
7. Find out if the Citizenship you are claiming may have Benefits or real Consequences.

Did you know that the IRS prosecutor had Ed and Elaine Brown's passport applications in the courtroom and was asking her why, when traveling abroad, she WAS a U.S. citizen, but when it came to paying her taxes, she was NOT a U.S. citizen? I was there; I will explain why the IRS was asking that question.

Sign up for the Next Class ONLINE – DATE: Saturday, FEBRUARY 24, 2018

10:00 AM to 6:00 PM (EST) Half Hour Break for Lunch
